Lilac Time

Lilac time is the loveliest time of the year. Who is there who has no memories of childhood permeated with fragrance of lilacs? There is something lacking in the home ground that does not have at least one group of this good old-fashioned flowering shrub.

To My Friends and Customers:

EVEN in the presence of winter we think and plan for spring and summer. Winter, be it ever so hard, never kills our faith that summer will come again. Beneath the bark that looks dead we know that buds are forming. In the desolation of what seems death the resurgence of life is being prepared.

While there is a widespread and serious depression, there is abundant evidence that the soil of our national life is preparing a revival of prosperity. Have faith. Plant a bigger garden than ever. Plant a few of our adapted fruit trees. Raise more corn and alfalfa hay. The family that makes the farm an old-fashioned home with diversified crops, fruits and domestic animals sufficient to meet the household needs will find agriculture one of the most satisfactory forms of existence.

Why Our List Is Small

Our lifelong experience in this short season, dry land country has given us definite ideas of what constitutes a really good variety. We grow hundreds of varieties of garden and field crops for observation before we feel ready to pass them on to our customers. We wish to give permanent pleasure to you and therefore have listed only varieties of **Early maturing, drought resistance and yielding ability** which are worthy of a place in your fields and gardens.

Good Service Appreciated

We try to give real service to all our customers, whether the seed and nursery stock order is large or small. We believe all appreciate our efforts, but many are too modest to say so. We are human, so we enjoy reading the hundreds of letters received from our customers telling us of the good luck they had and fine results secured from our seed and nursery stock. We thank you for these letters and assure you that we will continue to give you real value in seeds and nursery stock for your money.

Terms of Sale and Shipment

Payment: Cash in full with order. Money order, bank draft, check on good bank, or stamps accepted.

Delivery: We pay the postage or express on all Nursery Stock and Garden and Flower Seeds. All other items are F.O.B. Newell, unless otherwise stated.

Thousands of bushels of seed grain, seed corn, potatoes and flax go out to Wyoming, Montana and North Dakota by trucks at lower prices on account of large orders. Club your orders and ask for our special prices. It will save you money.

Newell is in Butte County, on the northern foothills of the Black Hills, about 30 miles from Montana line. We are on gravelled Highways 212 and 79 and not far from 85. Long distance telephone No. 52.

Use the Order Blank to be found in back of this catalog.

Until Eating Goes Out of Fashion

Gardening will be one of the most profitable and most healthful occupations.

Raise your own vegetables and reduce your living expenses. Bober's Northern Grown Vegetable Seeds are the hardiest, earliest maturing and the best adapted for your garden. Plant a bigger garden this spring.

Bountiful
Stringless

Garden BEANS

That Contribute Liberally to Your Table.

GREAT NORTHERN—The most delicious baking bean in the world. It takes the place of the little Navy bean, is a most wonderful producer, cooks in a very short time, is sweet and tender. $\frac{1}{4}$ lb. 10c; $\frac{1}{2}$ lb. 15c; 1 lb. 20c; 10 lbs. \$1.20; 100 lbs. \$8.00, prepaid.

BOBER'S BOUNTIFUL STRINGLESS GREEN POD BEANS

The earliest and one of the very largest green podded bush varieties grown. On account of its great earliness, its handsome, large, straight pods and its exceptionally fine quality it is one of the best to grow for the market or the home garden.

The plant is of thrifty growth, very hardy, and practically proof against rust or mildew. Pods are stringless, tender, and flat, they are produced very early in the season and the bushes continue to bear for a long time. It is the first to give pods fit to pick in the spring and the last to yield edible pods in the fall. Of a handsome, rich green color, they are of large size, thick, broad, flat, extra long, very uniform in shape, solid, meaty, brittle, and of finest quality. Melting, tender, and having a delicious flavor exclusively their own, the pods are absolutely stringless in all stages of growth. In addition they are most excellent shelled for winter use. Matures in 42 days. $\frac{1}{4}$ lb. 15c; $\frac{1}{2}$ lb. 20c; 1 lb. 25c; 5 lbs. \$1.00; 10 lbs. \$1.80; 100 lbs. \$12.00, prepaid. If you live close to town, it will pay you to plant 100 pounds. This bean is a money maker.

IMPROVED GOLDEN WAX—This is the very finest selected strain of the Golden Wax bean, and has for years been our most popular variety. It is especially adapted to this section. The pods are large, fleshy and stringless. The color is a bright golden. A very early sort and highly rust resistant. Plant plenty of these. They will pay. $\frac{1}{4}$ lb. 15c; $\frac{1}{2}$ lb. 20c; 1 lb. 25c; 5 lbs. \$1.00; 10 lbs. \$1.80, and we pay the postage.

HENDERSON'S BUSH LIMA—Often called "baby lima" because of the small size seeds, which are white and flat. Very productive, and the earliest of the limas. Prices: Pkt. 10c; $\frac{1}{4}$ lb. 15c; $\frac{1}{2}$ lb. 25c; 1 lb. 35c; 5 lbs. \$1.50.

BURPEE'S BUSH LIMA—Large seeded, delicious. Will mature in sixty days, making it good for our locality. Second earliest. Prices: Pkt. 10c; $\frac{1}{4}$ lb. 15c; $\frac{1}{2}$ lb. 25c; 1 lb. 35c; 5 lbs. \$1.50.

KENTUCKY WONDER—The best early pole wax bean for northern planting. Meaty and brittle. Pkt. 5c; $\frac{1}{4}$ lb. 15c; $\frac{1}{2}$ lb. 30c; 5 lbs. \$1.30.

Bober's Choice Garden PEAS

LITTLE MARVEL—One of the newest and best of the wrinkled peas. It is sweet, productive and of high quality. $\frac{1}{4}$ lb. 15c; $\frac{1}{2}$ lb. 22c; 1 lb. 37c; 5 lbs. \$1.10; prepaid.

Improved Gradus
Peas

BLISS EVERBEARING—If pods are picked as they mature the vines will continue to branch and bear all season. The best main crop variety. The peas are large, sweet and packed tight in the pod. Prices: $\frac{1}{4}$ lb. 15c; $\frac{1}{2}$ lb. 22c; 1 lb. 37c; 5 lbs. \$1.10; prepaid.

ALASKA or EARLIEST OF ALL (52 days to maturity.) A greater acreage of Alaska is planted by canners and gardeners than any other. Produces medium sized bright green peas of excellent quality. Matures its crop at one time. Prices: $\frac{1}{4}$ lb. 15c; $\frac{1}{2}$ lb. 22c; 1 lb. 37c; 5 lbs. \$1.00; prepaid.

EXTRA EARLY GRADUS—A good early sort, produces large pods of wrinkled peas, and bears throughout the season. Prices: $\frac{1}{4}$ lb. 15c; $\frac{1}{2}$ lb. 22c; 1 lb. 37c; 5 lbs. \$1.10; prepaid.

PREMIUM GEM—A dwarf type of pea of delicious flavor. It is fine for the home garden. Prices: Pkt. 5c; $\frac{1}{4}$ lb. 15c; $\frac{1}{2}$ lb. 22c; 1 lb. 37c.

LAXTONIAN—One of the finest and most profitable kinds to grow. A dwarf variety and is ready for gathering as early as the Gradus. Has a true marrow fat, delicious flavor. The pods are large,—if anything larger than the Gradus and better filled. Pods and vines are of rich healthy green. Prices: $\frac{1}{4}$ lb. 15c; $\frac{1}{2}$ lb. 22c; 1 lb. 37c; 5 lbs. \$1.10; prepaid.

WORLD'S RECORD or IMPROVED GRADUS. (My pick.)—One of the earliest of the wrinkled, seeded, large podded varieties. The vines reach a height of 2 feet, produce most abundantly and bear throughout the season. These tender peas have a most delicious flavor and are the market gardener's favorite. Prices: $\frac{1}{4}$ lb. 15c; $\frac{1}{2}$ lb. 22c; 1 lb. 37c; 5 lbs. \$1.10; prepaid.

Improved Golden Wax

Send us your order early. You can count on prompt service, generous measure and the finest quality seed adapted to your farm.

LETTUCE—The Best Salad Plant

NEW YORK or WONDERFUL—A large variety of fine quality, more largely planted by commercial growers of head lettuce than any other sort. The heads are very solid, of finest quality, with outer leaves a rich dark green. It withstands heat and is one of the best heading sorts for the home garden. **Prices:** Pkt. 10c; oz. 20c; ¼ lb. 50c; ½ lb. \$1.10; lb. \$2.00.

N. Y. Wonderful

BLACK SEEDED SIMPSON—One of the most popular of all the early curled lettuce. Very tender and of delicate flavor. **Prices:** Pkt. 5c; oz. 15c; ¼ lb. 40c; ½ lb. 70c.

BIG BOSTON—Early, large, bright green heads. A very hardy and vigorous variety and one of the best known. **Prices:** Pkt. 5c; oz. 15c; ¼ lb. 55c; ½ lb. 95c; lb. \$1.80.

PARSLEY

CHAMPION MOSS CURLED—Leaves finely curled, of a rich dark green. Use for garnishing and seasoning. **Prices:** Pkt. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 45c; lb. 80c.

SPINACH

NEW ZEALAND—A thrifty variety that will stand hot weather. Continuous sprouting makes it desirable for home use. **Prices:** Pkt. 5c; oz. 10c; ¼ lb. 35c; ½ lb. 55c; lb. \$1.00.

BLOOMSDALE—The earliest and hardest variety. Crisp, crinkled broad leaved that keep well after cutting. **Prices:** Pkt. 5c; oz. 10c; ¼ lb. 20c; ½ lb. 30c; lb. 50c.

Bober's PUMPKINS Make Best Pies

SMALL SUGAR—Much smaller than the field varieties, rich in sugar, finely grained and sweet. Exceptionally fine pumpkin for pies. It is a very prolific type, producing nice, uniform size and shape pumpkins in abundance. Considered one of the hardiest and easiest to grow. Matures in about 70 days. **Pkg. 5c; oz. 10c; ¼ lb. 28c; lb. 80c; postpaid.**

JAPANESE PIE—Fine grained, dry and sweet. They ripen early, keep well and are fine for home use. It is one of the easiest pumpkins to grow. A large crook-neck sort with dark green skin mottled with yellow stripes. Matures in about 80 days. **Pkg. 5c; oz. 10c; ¼ lb. 28c; ½ lb. 45c; lb. 75c; postpaid.**

KING OF THE MAMMOTHS—The giant of pumpkins. Flesh a golden yellow, good quality and excellent for cooking. **Pkt. 5c; oz. 15c; ¼ lb. 40c; ½ lb. 70c; lb. \$1.20.**

Small Sugar

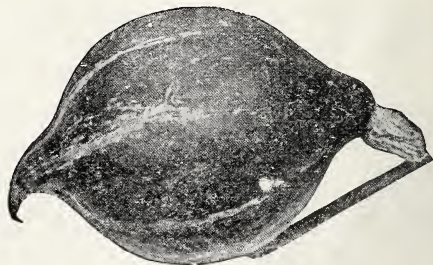

Use SQUASH Baked and Buttered

BOBER'S TABLE QUEEN—A small acorn-shaped, dark green squash, almost black, about 4 inches in diameter and 6 inches long. The fruits turn to a golden color as they mature, and can be used either green or ripe. **Vines seem almost insect proof, and the ground is literally covered with the scalloped, rather roundish dark green fruits.** Of superb quality, they make excellent pies and can be cooked whole when young. Is of exceptionally nice flavor, and is just the right size to cut in half and bake. It is a splendid keeper, immensely prolific and is one of the best squashes for the home garden. One of our customers reports 36 of these nice squash from three hills. A fine winter variety. **Pkg. 5c; oz. 14c; 2 oz. 20c; ¼ lb. 30c; lb. \$1.10, prepaid.**

BOBER'S GOLDEN HUBBARD—In shape very similar to the Improved Hubbard. Trifle smaller, however, but earlier and more prolific. The rind is a golden color and is somewhat warted. It is the earliest of the Hubbards and an extremely heavy producer. The average weight of the fruits is about 8 pounds; occasionally light cream colored stripes are seen at the blossom end. Has finely grained flesh, thick, and richly flavored, and is a favorite with canners; has excellent keeping qualities. The shell is hard and strong, making it a good shipper. **Pkg. 5c; oz. 14c; 2 oz. 20c; ¼ lb. 30c; lb. 90c, prepaid.**

BANANA SQUASH—Sweetest of all varieties and excellent for culinary use. Entirely free from fiber and stringiness. **Pkt. 5c; oz. 15c; ½ lb. 40c; lb. \$1.50, prepaid.**

IMPROVED HUBBARD—The standard winter squash, well known, highly productive variety. Flesh is bright yellow, fine grained and sweet. **Pkt. 5c; oz. 15c; ¼ lb. 40c; ½ lb. 65c; lb. \$1.25.**

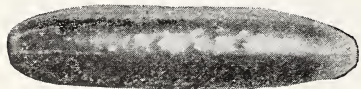

Golden Hubbard

CUCUMBERS

IMPROVED WHITE SPINE—One of the earliest of the cucumbers and a heavy producer. **Prices:** Pkt. 5c; oz. 12c; ¼ lb. 35c; ½ lb. 60c; lb. \$1.10.

IT STAYS GREEN—A good pickling variety for continued pickling. Recommended to all who put up their own pickles. **Prices:** Pkt. 5c; oz. 12c; ¼ lb. 35c; ½ lb. 60c; lb. \$1.10.

CHICAGO PICKLING—Old reliable variety for making small pickles. Especially good for marketing. Heavy producer. **Prices:** Pkt. 5c; oz. 12c; ¼ lb. 35c; ½ lb. 65c; lb. \$1.15.

Stays Green Cucumber

Plant a good big garden. That's the way to beat the high cost of living.

Short Season WATERMELONS

COLE'S EARLY—One of the earliest and best. Bright striped in two shades of green, with bright red flesh of delicious quality and thin rind. **Prices:** Pkt. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 45c; lb. 80c.

PEERLESS or ICE CREAM—Very early flesh is bright scarlet and is as sweet as honey. One of the best varieties of the north. **Prices:** Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. 75c.

BOBER'S KLECKLEY SWEET (My pick)—This is a real quality melon. The flesh is fine grained, tender and sweet. In fact, it is so tender that quite often it will pop open as soon as you stick a knife in it. If you want a better melon than this one you are hard to suit. Medium long or oblong in shape and weighing sometimes 40 pounds or even more. I received more letters from all sections including northern Montana praising this wonderful melon. You will be a booster for it, too. **Prices:** Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. 85c.

SWEETHEART—A medium early variety producing extremely large melons of excellent quality. The seeds are black and the flesh very fine. It has an extremely "sweet heart" which is the all desirable essential in a melon. Vigorous and productive vines. Large, oval, heavy fruits that ripen evenly. The rind is firm, light green, veined or mottled with darker shade. Bright red flesh, solid, sweet and free from core (hence its name). Keeps well and improves after ripening. **Pkg. 5c; oz. 10c; ¼ lb. 26c; ½ lb. 40c; lb. 75c; 2 lbs. \$1.65.**

WINTER WATERMELONS—Good in season with other melons and if stored in a cool, dry place will keep until Christmas. White rind, red flesh and black seeds. **Prices:** Pkt. 10c; oz. 15c; ¼ lb. 40c; ½ lb. 65c; lb. \$1.10.

Bober's Kleckley Sweet

MUSKMELON—Delicious and Appetizing

EXTRA EARLY OSAGE—Earliest salmon fleshed variety. Oval dark green fruit. Ideal for the home garden. **Prices:** Pkt. 5c; oz. 15c; ¼ lb. 40c; ½ lb. 75c; lb. \$1.40.

HONEY DEW—Preferred by most people. Six to eight inches in diameter with a hard white rind and green flesh. Command a high price on the market. **Prices:** Pkt. 5c; oz. 15c; ¼ lb. 40c; ½ lb. 70c; lb. \$1.20.

WALWORTH'S GOLDEN CHAMPLAIN—The best of 34 varieties tried by the originator. High quality golden fruit that matures in 57 days. Two weeks earlier than other varieties. **Prices:** Pkt. 10c; oz. 20c; ¼ lb. 50c; lb. \$1.50.

EMERALD GEM—Luscious salmon-pink flesh, thick and sweet. An excellent home garden melon. **Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.25.**

HEARTS OF GOLD—Ripens immediately after Golden Champlain. Highest quality. Nearly solid meat, of beautiful salmon flesh. **Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.40.**

Muskmelon

DILL Familiar garden plant used in making pickles and for seasoning relishes. **Prices:** Pkt. 5c; oz. 10c; ¼ lb. 30c.

SAGE for seasoning and stuffing. **Pkt. 10c; oz. 40c.**

RADISHES—Fresh, Crisp Radishes a Table Dainty

Plant early using about one ounce of seed to 100 feet of row. Plant often so that you can always have them at their best.

FRENCH BREAKFAST—A half long, crisp, tender, quick growing radish, scarlet with white tip. Very early. **Prices:** Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. 85c.

ICICLE—The finest of the pure white varieties; very popular. Keep their unusually crisp and tender quality longer than red sorts. **Prices:** Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. 85c.

BOBER'S SAXA—The earliest attractive, round, bright red radish. The flesh is pure white, crisp and has an agreeable snappy radish flavor. Grown in 20 days after planting. **Pkt. 5c; oz. 12c; ¼ lb. 35c; lb. \$1.00.**

Radishes

BEETS

IMPROVED EGYPTIAN—Earliest and best bunching beet. Rounding flat root, bright red flesh, slightly zoned. **Prices:** Pkt. 5c; oz. 10c; ¼ lb. 30c; ½ lb. 50c; lb. 82c; prepaid.

DETROIT DARK RED—The beet that produces the main crop. Very tender and delicious, as well as attractive when canned. **Prices:** Pkt. 5c; oz. 10c; ¼ lb. 30c; ½ lb. 50c; lb. 82c; prepaid.

ECLIPSE—A very early variety with round, bright red roots. The flesh is crimson with pinkish white zones, sweet, crisp and tender. **Prices:** Pkt. 5c; oz. 10c; ¼ lb. 30c; ½ lb. 50c; lb. 82c; prepaid.

STOCK BEETS—Increase Milk and Egg Production

GOLDEN TANKARD—A good cattle beet noted for its milk producing properties. Grows well above the ground and yields on light soils. **Prices:** oz. 7c; ¼ lb. 20c; lb. 55c; 5 lbs. \$2.00, prepaid.

MAMMOTH LONG RED—The heaviest cropping and largest of mangels, often yielding 40 tons per acre. Solid, straight, red roots. **Prices:** Oz. 7c; ¼ lb. 20c; lb. 55c; 5 lbs. \$2.00; prepaid.

SUGAR BEETS—Same variety used by beet raisers in Belle Fourche Valley for sugar production. This variety combines heavy yield with an extremely high sugar content. It is not only a source of sugar but an excellent stock feed and a heavy milk producer. **Prices:** Oz. 7c; ¼ lb. 20c; lb. 55c; 5 lbs. \$2.00; prepaid.

Egyptian Beet

8 lbs. of stock beet seed produces 10 to 30 tons of roots per acre, depending on season. It will pay you to try an acre.

Danvers Carrot

Use CARROTS for Health

OXHEART—Very thick, short, medium sized carrot. Plant this variety for early use, pulling the tender half-grown roots which you will find very sweet and mild. A favorite on dry land. Prices: Pkt. 5c; oz. 10c; ¼ lb. 28c; ½ lb. 45c; 1 lb. 85c; prepaid.

DANVERS HALF LONG—A large carrot of fine quality, deep orange in color, with close textured flesh and small core. Prices: Pkt. 5c; oz. 10c; ¼ lb. 30c; ½ lb. 50c; 1 lb. 90c; prepaid.

CHANTENAY—Excellent, medium early, half long, stump rooted variety. Roots are smooth with orange red flesh of finest quality. Prices: Pkt. 5c; oz. 10c; ¼ lb. 30c; ½ lb. 50c; 1 lb. 95c; prepaid.

IMPROVED LONG ORANGE—An old standard sort, desirable for either field or garden use. Medium early, tremendous yield; roots penetrate deeply so that plant gets moisture even in very dry weather, an important feature in the northwest. Roots about 12 inches long and 3 inches in diameter, flesh bright orange, smooth, sweet and fine-grained. A very good keeper. Prices: Pkt. 5c; oz. 10c; ¼ lb. 30c; ½ lb. 50c; 1 lb. 95c; prepaid.

PARSNIPS for Winter and Early Spring

IMPROVED GUERNSEY—Thick heavy roots with fine grained flesh of sweet quality. Prices: Pkt. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 42c; 1 lb. 75c; prepaid.

LONG SMOOTH or HOLLOW CROWN—Large roots that are tender and sweet. A great producer and one of the very best varieties. Prices: Pkt. 5c; oz. 10c; ¼ lb. 24c; ½ lb. 42c; 1 lb. 75c; prepaid.

RUTABAGA

IMPROVED AMERICAN—Large globular roots with small tap root. Solid, tender, yellow flesh that is sweet and firm. Prices: Pkt. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 40c; 1 lb. 70c; prepaid.

WHITE SWEET RUSSIAN—One of the sweetest and best of white Rutabagas. Oz. 10c; ¼ lb. 25c; ½ lb. 40c; 1 lb. 75c; prepaid.

PEANUTS

EARLY NORTHERN—Earliest and best for the North. The pods are small, well filled and prolific. They will produce a crop in any ordinary season in any county where corn will ripen. Pkt. 10c; ¼ lb. 15c; ½ lb. 25c; 1 lb. 35c, postpaid. 5 lbs. \$1.20.

TURNIPS

EXTRA EARLY PURPLE TOP—The earliest in cultivation. Medium sized roots, with purple tops. Prices: Pkt. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 45c; 1 lb. 80c; prepaid.

EXTRA EARLY WHITE MILAN—Creamy white roots of medium size, flat and uniform. Flesh is fine grained, tender and sweet. Prices: Pkt. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 40c; 1 lb. 75c.

SALSIFY or VEGETABLE OYSTER

SANDWICH ISLAND—An improved type, double the size of the old variety. Long roots of excellent quality and delicate flavor. Makes real tasty soup. Prices: Pkt. 5c; oz. 20c; ¼ lb. 70c; ½ lb. \$1.25.

SUNFLOWER SEED—Mammoth big Russian, valuable poultry feed and for windbreak. Prices: Pkt. 5c; 1 lb. 30c; 10 lbs. \$1.50.

CAULIFLOWER

Start early in house or hot bed.

DANISH DRY WEATHER—Produces solid pure white. Especially adapted for growing in dry sections where nearly all other varieties fail to make good heads. Pkt. 15c; ¼ oz. 50c; oz. \$1.50.

DANISH PERFECTION—This is the earliest cauliflower grown; heads small, round and uniform, quality excellent, keeping quality good. Can be placed on the market early to command the best price and is unexcelled for the home garden. A sure header, the inner leaves curl over, largely doing away with the need of tying up the heads. Prices: Pkt. 10c; oz. \$1.50.

Adapted CABBAGE Varieties

DANISH BALLHEAD—One of the hardiest drought resistant cabbages; crisp, tender and sweet. Heads weigh very heavy. Prices: Pkt. 10c; oz. 25c; ¼ lb. 80c; ½ lb. \$1.40; 1 lb. \$2.60; postpaid.

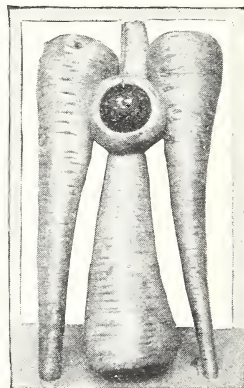

ROBER'S GOLDEN ACRE—Earliest of all. A new early cabbage with a round hard head. Copenhagen type, but 10 days earlier. Because of its earliness and high quality it commands a higher price than any other round head cabbage. Prices: Pkt. 10c; oz. 32c; ¼ lb. \$1.20; ½ lb. \$2.20; 1 lb. \$4.00.

COPENHAGEN MARKET—A splendid variety that is a universal favorite with market gardeners. It is a second early cabbage and bears with heavy heads, permitting a large yield per acre. It is of vigorous growth, but compact, upright and with few outer leaves. Heads are nearly round, medium light green, leaves thick and smooth. Stems are short, the heads growing close to the ground and averaging about 10 pounds in weight. Uniform in shape and size and of excellent quality. The entire crop can be harvested at one time. Prices: Pkt. 10c; oz. 25c; ¼ lb. 80c; 1 lb. \$2.90, postpaid.

Golden Acre Cabbage

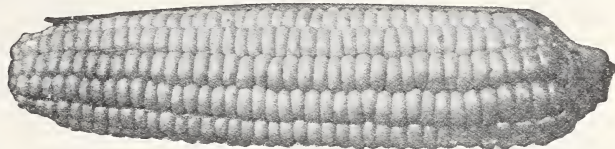

Our Early Corn again won first in yield in a test conducted by U. S. Dept. of Agriculture in competition with 20 other varieties in two tests on dry land in Meade County.

Long Smooth Parsnip

SWEET CORN—Bober's Golden Sunrise a Money Maker

GOLDEN SUNRISE—A new delicious golden sweet corn with the Golden Bantam flavor and two whole weeks earlier, it even beats the "Sunshine" by 3 days. It took 15 years to develop this sensational early corn. Remember its three big points: Large size, rich, buttery and delicious flavor, extremely early. **You will have the first sweet corn for market and table in your neighborhood.** It will make you good money. Sam recommends this variety. **Prices:** Oz. 5c; ¼ lb. 15c; ½ lb. 20c; 1 lb. 30c; 5 lbs. \$1.10; 10 lbs. \$2.00; postpaid to your address.

Golden Sunrise Corn

GOLDEN BANTAM, BLACK HILLS SELECTION—A good quality sweet corn, rich, creamy yellow, sweet and tender. **Prices:** Oz. 5c; ¼ lb. 10c; ½ lb. 15c; 1 lb. 25c; 5 lbs. 70c; 10 lbs. \$1.20; postpaid.

STOWELL'S EVERGREEN—The standard main crop. Excels other late sorts in sweetness and productivity. **Prices:** Oz. 5c; ¼ lb. 15c; ½ lb. 20c; 1 lb. 30c; 5 lbs. \$1.00; 10 lbs. \$1.65.

SUNSHINE—Golden eared hybrid, originated by Prof. Yeager of North Dakota. It is 10 days earlier than Golden Bantam and much larger. A variety that should be in every garden. **Prices:** Oz. 5c; ¼ lb. 15c; ½ lb. 20c; 1 lb. 30c; 5 lbs. \$1.10; 10 lbs. \$1.85; postpaid.

BOBER'S GOLDEN GEM SWEET CORN—The earliest golden colored sweet corn for the northwest, introduced by Prof. A. F. Yeager of the North Dakota Agricultural College. The ears are of good size, averaging 7 to 8 inches in length, and are borne close to the ground on stalks about 3½ feet high. From one to three ears are produced on each stalk. Golden Gem is eight rowed; kernels are quite deep, broad, meaty, rich golden yellow, very tender and of the sweetest and most sugary flavor imaginable. The greatest feature, however, is its extreme earliness! With Golden Gem, market gardeners may secure even better prices and home gardeners may have absolutely the very earliest yellow sweet corn. **Prices:** Pkt. 10c; ¼ lb. 15c; 1 lb. 35c; 5 lbs. \$1.25; 10 lbs. \$2.25, postpaid.

Bober's Golden Gem

SHORT SEASON POP CORN

JAPANESE HULLESS—Of wonderful quality for popping; sells at a premium over all other sorts. **Prices:** Pkt. 5c; ¼ lb. 12c; ½ lb. 20c; 1 lb. 25c.

WHITE RICE—Pearly white kernels resemble rice. Be sure to get the northern selection with which we can furnish you. **Prices:** Pkt. 5c; ¼ lb. 10c; ½ lb. 20c; 1 lb. 25c.

An ONION a Day Keeps the Doctor Away

SOUTHPORT RED GLOBE—One of the finest types and a popular kind. This strain will ripen surely and keep well. A showy market onion. **Prices:** Pkt. 10c; oz. 20c; ¼ lb. 55c; ½ lb. 90c; 1 lb. \$1.60.

MOUNTAIN DANVERS—An early yellow onion that is a good market variety. It ripens up solid without any "thick necks" or "doubles," and keeps well. It has a good bright color. Because of its earliness it is fine for sections where the seasons are short or anywhere an early onion is needed. **Prices:** Pkt. 10c; oz. 20c; ¼ lb. 50c; 1 lb. \$1.55. A winner in this section.

WELSH WINTER—The best perennial onion for your garden that will produce an abundance of the earliest green onions. **Prices:** Pkt. 10c; oz. 20c; ¼ lb. 50c; ½ lb. \$1.00.

PRIZE TAKER—Sweet Spanish type, large yellow onion. Grows to immense size. **Prices:** Pkt. 10c; oz. 20c; ¼ lb. 60c; ½ lb. \$1.00; 1 lb. \$1.65.

GLOBE ONIONS

Danvers Yellow Globe

EARLY MATURING POTATOES

I offer best yielding Bliss Triumph seed potatoes, **State Certified stock**, at \$1.20 per bu.; 5 bushels for \$3.50, not prepaid. This strain of potatoes produced a world's record of 1,069 bushels per acre. I ship a lot of this seed stock to middle west and southern farms where it makes big records. Bayer Dip Dust—Potato disinfectant, enough to disinfect 15 bushels seed potatoes in 2 minutes, \$1.75 per lb. Takes 2 minutes instead of hours to disinfect and is more effective. **Potato prices f. o. b. Newell.**

From North Dakota: We produced the largest watermelons in the county from your Bober's Kleckley Sweets. Your Danver's Yellow Globe Onion paid big.

SHORT SEASON TOMATOES

Richest in vitamins. Use tomatoes in soups, salads, and sliced. One of our customers sold 15 tons tomatoes to the stores, raised from John Baer and Earliana seed we sold him.

Earliana

EARLIANA—The earliest of all tomatoes. Fruit round, smooth, red flesh and very meaty. Ripens over long season. Medium size tomatoes in clusters, plants very productive. **Prices:** Pkt. 5c; oz. 30c; ¼ lb. \$1.10.

RED HEAD—A deep blood red tomato that does not crack open easily and it is practically resistant to blight. **Prices:** Pkt. 10c; oz. 40c; ¼ lb. \$1.35.

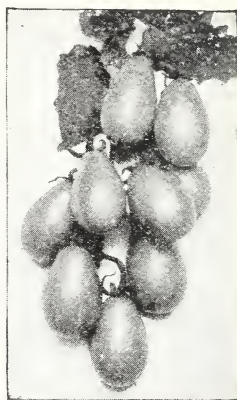

BONNY BEST—Fruits ripen evenly, and are of superior solidity and interior color than many varieties. Smooth, round. **Prices:** Pkt. 10c; oz. 35c; ¼ lb. \$1.20.

JOHN BAER—An early bright red tomato, ripens evenly up to the stem. Does not scald, blight or crack. A fine tomato for this section. **Prices:** Pkt. 10c; ½ oz. 20c; oz. 35c; ¼ lb. \$1.20.

YELLOW PLUM—Resembles a plum in size and shape. Of good flavor and especially desirable for preserving. **Prices:** Pkt. 10c; oz. 45c.

YELLOW PEAR—Small pear shaped fruit of delicate flesh and flavor. Excellent for pickling and preserving. **Prices:** Pkt. 10c; oz. 40c.

GROUND CHERRY or HUSK TOMATO—Unequalled for canning, preserving, or making pies. Bushy vines yield immense crops. **Prices:** Pkt. 10c; oz. 50c.

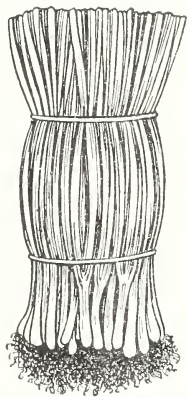

Yellow Pear

VEGETABLE PLANTS

Plants are perishable, especially tomato plants which frequently dry out in inland post offices. We cannot guarantee safe delivery of these plants except to town people who call for them promptly.

Our vegetable plants are well grown and very sturdy and will give you the best possible results. Many people prefer to buy the started plants of those things that must be started in hotbeds than to bother with the seeds themselves.

BERMUDA ONION PLANTS

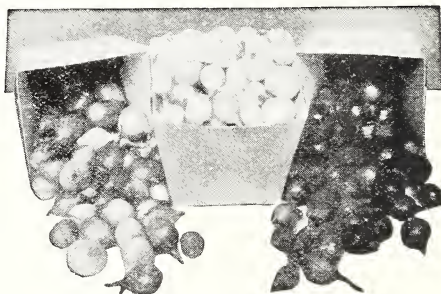

Can be planted April 1st to August 1st. Keep these in a dry place until planted. It does not hurt tops of these onion bulbs to dry out. The mildest and sweetest of all onions. Large yields of delicious Bermudas, that will bring you good returns for your investment. Bermudas are in great demand and you should get in on the ground floor to get your share of the profits. Buy our strain and insure yourself for the best chance for success with Bermudas. **Prices:** 200, 50c; 500, 95c; 1,000, \$1.65. Crate of 6,000 plants, \$6.75, prepaid.

ONION SETS

For large onions in one season plant our onion sets, which have been raised from the purest strains of seed. One bushel is 32 pounds.

Onion Sets

GARLIC—Whole, sound, white for seed or pickling. 1b, 40c; 5 lbs. \$1.60; postpaid.

No garden is complete without onion plants or onion sets.

WHEAT

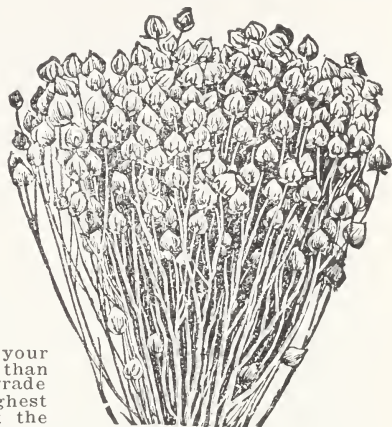

NEW CERES HARD SPRING WHEAT—Ceres is the most important wheat introduction since the Marquis first came in. It is very rust resistant, high yielding under nearly all conditions, and is slightly earlier than Marquis. CERES is a bearded wheat, being a cross between Kota and Marquis. It beats Hope wheat. **\$1.20 bu.; 10 bu. at \$1.15.** Free bags.

KUBANKA—The most rust resisting, drought resisting and highest yielding selection of Durum or Macaroni wheat. **Price per bu. \$1.10.**

RUBY WHEAT—About a week earlier than Marquis. It is a bald wheat of fine milling quality, with nice hard red berry, and straw of medium height. The great value of Ruby lies in its earliness, which enables it to escape drought and rust. **Price per bu. \$1.10.**

The Best Ever FLAX

Flax is one of the most dependable and profitable crops grown in the west. Because of its short growing season and quick maturing qualities it may be planted as late as the middle of June and make a matured crop almost anywhere in the United States, and is one of the most desirable late crops to grow. Flax takes less fertility and moisture from the soil than the grains, clovers or grasses during its growing season. This has been proven by careful soil tests. Flax will yield 10 to 20 bushels per acre under favorable soil and weather conditions and is usually much more profitable than any of the grains. It may be used with success as a nurse crop for the clovers and grasses as it does not shade the seedling plants as much as the grains and takes less moisture and fertility from the soil. Flax is a most desirable crop to grow on native sod the season it has been plowed, and on corn and clean grain stubble. Five to 10 lbs. of flaxseed per acre planted with oats and barley and ground up after harvest produces the most profitable feed for your hogs, cattle and sheep, as the ground flax is richer than linseed meal or cottoncake. I can supply you highest grade **Certified Bison** flax seed, wilt and rust resistant and highest yielding among all flax varieties, awarded 1st prize at the State Fair and State Crop Improvement Show. **Prices: 10 lbs. prepaid to any address \$1.25; bu. \$2.10; 5 bu. \$10; 10 bu. \$19. Not prepaid, Buda wilt resistant flax, bu. \$1.90; 5 bu. \$9.25; 10 bu. \$18.00; N. D. No. 114 wilt resistant flax, bu. \$1.80; 5 bu. \$8.75; 10 bu. \$17.00. Bags free.**

Flax

BARLEY

PEDIGREED TREBI BARLEY—This heaviest yielding, largest grain variety is adapted to better land or low land along river or creek bottom. It will produce more pounds of grain per acre than any other crop. Try a few acres and be convinced. **Price: \$1.25 bu.; 2 bu. \$2.15; 10 bu. \$10.00.** This Trebi barley made a record yield of 100 bushels per acre in Butte County.

NEW IMPROVED BLACK HILLS WHITE HULLESS AND BEARDESS BARLEY

Has neither beards nor hulls, extremely early, making it very valuable for hog and poultry feed. Yields immense crops that thresh out from the hull just as wheat does. Better and richer for feeding purposes than any other barley. Normally producing two to three times the yield of the best wheat. **Price: \$2.50 per 100 lbs.**

Dwarf Essex Rape

A forage plant of highest value. It can be sown in April for an early crop, and for fall crop in July and August. In a few weeks from the time of sowing hogs and cattle can be turned in on it. On an average one acre will carry 8 to 12 sheep six weeks to two months. When on the rape they should at all times have access to salt. Pigs and cattle are also very fond of it. Any corn soil will grow rape. Sow the seed by the end of June and the crop will be ready to feed at a season when it is most needed. It does well sown with oats. After oats are cut the rape grows rapidly. If the soil is rich and clean, sow broadcast; if not so clean, sow in drills and cultivate as for corn. When sown broadcast, use 5 to 6 pounds, and if in drills, 2 to 3 pounds to the acre. **Prices, purchaser paying express or freight charges: 5 lbs. \$1.00; 10 lbs. \$1.50; 25 lbs. \$3.00; 50 lbs. \$5.00, prepaid; 100 lbs. not prepaid, \$7.80.**

NO WILD OATS HERE

I can supply you with the new Gopher Oats, No. 674. This is a white seeded early maturing oat, having stiff straw and open panicles, of good weight. Jeremiason & Sons, who live 14 miles west of here, had the nicest, cleanest lot of seed oats which outyielded all other varieties in all northwest sections. This is **certified pure Gopher oats free from any wild oats or other weeds.** Limited stock this year. Rush your order for real seed oats. **Prices: bu. 85c; 5 bu. \$4.00; 10 bu. \$7.00; 20 bu. \$13.00.**

Gopher No. 674 Oats

Bags included free. Uncertified seed oats 48c bushel.

Sam Bober's flax seed made a record of 20 bushels per acre in Butte County

Prof. Hansen's Proso or Hershey

Awarded first prize at State Crop Show last five years. Also known as Hershey, and hog millet. One of the greatest dry land grain crops.

In the north it will become a staple grain crop, because it will ripen in sixty days after sowing in an eight inch rainfall country, yielding three hundred fold. This means one pound sown in late June or July will bring four or five bushels of good grain that will weigh 60 to 64 pounds to the bushel. It is fine for poultry feed and will fatten hogs and cattle for the market.

Plant 20 lbs. per acre with a grain drill and harvest it same way as grain. It may be planted in stubble after the wheat, barley or oats are harvested and enable you to raise a second crop of hay or grain from the same land in one season.

Hansen Proso Prices: 10 lbs. \$1.00; 25 lbs. \$1.50; 50 lbs. \$2.00; 100 lbs. \$3.50; 500 lbs. for \$15.00.

SUDAN GRASS

For Beef Stock and Milk Cows

Although this wonderful forage crop is an annual and lacks an underground root system, yet it can be pastured to good advantage and under favorable conditions two cuttings of hay may be obtained.

Sudan Grass makes the heaviest yields on rich, loamy ground but has been grown successfully on every kind of soil from heavy to light sand.

Plant when all danger of frost is over and the ground is thoroughly warm as the plant requires warmth and is not suited to altitudes above 7,000 feet. Sow 10 to 15 pounds per acre.

Cut for hay as soon as the grass is fully headed, with binder or mower as preferred. If planted in drills the crop can be conveniently handled with a corn binder. **Prices:** 5 lbs. 70c; 10 lbs. \$1.20; 50 lbs. \$3.00; 100 lbs. \$5.00.

"Sam himself behind a bundle of Proso grown on his farm."

ALFALFA

Again demonstrated in 1931 its ability to withstand drought. With a record of less than 8 inches of rainfall for the year, alfalfa produced hay and seed in the Black Hills district and surrounding country.

Grow More Protein

During my nine years' work at the government experiment station in experimental feeding of live stock, alfalfa and local grown corn proved to be the most practical and most profitable ration for most stock.

Prices for best grade Extra No. 1 alfalfa seed, 99.7 per cent purity, including bags: Prof. Hansen's Siberian Cossack, in addition to being hardy, it produces the finest hay on account of its finer stems. Also produces pasture that hogs don't kill out. **\$23.00 per 100 lbs.** Hardy Grimm Alfalfa seed, best yielding selection, **\$21.00 per 100 lbs.** Dakota No. 12, better than ordinary northwestern common, at **\$17.00 per 100 lbs.** No. 1 grade of above seed, 99 per cent purity, at **\$2 less per 100 lbs.** Smaller seed from above three varieties 98% purity free from foul weeds @ **\$12 per 100 lbs.**

Former President and Mrs. Coolidge inspecting a dryland alfalfa field while on vacation here in 1927. Sam Bober's Hardy Grimm Alfalfa Seed is planted on Coolidge's farm in Vermont.

Recleaned Alfalfa Screenings

Broadcast by hand early in the spring 10 lbs. of this per acre in your pastures and it will start enough alfalfa plants to increase the pasturing capacity 25 to 50 per cent per acre. **Price: \$3.50 per 100 lbs., including bags.**

FOR SEED PRODUCTION

State Registered blue tag Grimm at **\$24.00 per 100 lbs.** Same grade Registered Cossack, **\$27.00 per 100 lbs.** Smaller lots 1c lb. higher. Free bags.

MILLET

DAKOTA KURSK MILLET—Pedigreed selection No. 79. Experiments conducted at the Experiment Stations in South Dakota have demonstrated beyond dispute the value of this variety. As a hay and seed producer it is without equal and in dry seasons it seems it will outyield any other variety. **Prices:** 50 lbs. \$2.00; 100 lbs. \$3.50.

Flower Seeds for Northwest Farms and Homes

Northern Grown

WE PAY POSTAGE ON FLOWER SEEDS

Every seed order should include a generous list of FLOWER SEEDS, ROOTS and BULBS. Time spent in your flower beds is well spent. If you have a natural love of flowers, encourage it. If you have no such impulse, develop it. Flowers are God's message to us of love and good cheer. They will erase the lines of care from your face and arrest the march of gray in your hair.

Sam Bober's Corn Has Yielding Ability and Drought Resistance That You Cannot Buy in Corn Elsewhere

In an impartial test conducted by the State College on high and dry gumbo soil, Sam Bober's Falconer corn, Payne's White Dent, Black Hills Special yellow dent and Gehu flint made the best yields, yielding as high as four times as much as some of the other varieties in the same test.

Prices for all Varieties:
Per Bushel \$2.35
5 Bushels for \$10.50

Minnesota No. 13

Payne's White Dent—the Record Breaker

My Payne's White Dent made a record of 91 bushels of corn to the acre on 10 acres dry land for Jas. McNeil, St. Onge, S. D., in a 10-acre contest. Weighed and measured by government men. J. C. Milne, near Vale, S. D., made another record of 90 bushels per acre. This is not just talk but actual recorded yields. The U. S. Department of Agriculture in its bulletins recommend Payne's White Dent as the best and highest yielding dent corn for this short season country. It will produce the most ripe corn and the most meat per acre, whether sheep or hogs or cattle are used to harvest it. Try at least a bushel against any corn. It will be an eye opener.

Bober's Minnesota 13 Yellow Dent

As its name implies, this variety was originally introduced by the Minnesota Agricultural College, St. Paul, Minnesota. It matures in 90 days, grows from 6 to 8 feet high. The ears carry from 14 to 16 rows of kernels and average 7 to 9 inches long, 6 to 7 inches in circumference. Kernels are fairly dark yellow of medium depth. Cob is red. Minnesota 13 is used by many of our best farmers on low land and for silage purpose, too.

Bober's Gehu Seventy-Day Yellow Corn

The best known of the native early flints. Its feeding qualities are the highest of any variety of corn. It is leafy and produces a tremendous amount of excellent fodder. Since it does not make a large, heavy stalk every part of the plant is utilized in feeding.

Falconer Semi-Dent Yellow Corn

The Highest Yields on Dry Land

One of the highest yielding and early maturing. More like flint, color somewhat uneven. Will grow and develop in cold weather when other corn stands still.

Alta Yellow Dent

A new pure pedigreed yellow dent corn developed by our State Experiment Station. Ripens in 90 days. A medium size yellow corn for the short season country. Have grown this corn for 4 years and it is fully adapted.

Blue Flour and Squaw Corn

Raised originally by the Indians and gradually improved and selected by us. Drought resisting, leafy and heavy yielding. These two varieties are early and excellent for hogging off.

Bayer Dust for Seed Corn—\$1.75 per pound. Will treat seed corn for 35 acres. Good cheap insurance against unfavorable weather.

Black Hills Special Yellow Dent. First Prize at the State Fair. Best Yielding of the Yellow Dents

Black Hills Special

Highest Yielding Yellow Dent

This corn made a record of 84 bushels per acre in Butte County. It made the second highest yield for dent varieties, being second to Payne's White in the test conducted by the State College on dry land in Meade County. This is an early selection of Minnesota No. 13 and is the highest yielder of all the yellow dents. This variety is rapidly gaining favor because of its sure cropping of high yields. Shells well and is an excellent feeding corn.

A New Black Hills Cross

To provide a real early maturing, high yielding dent corn for dry upland, I can supply you with a new local corn, a cross of Payne's White Dent and White Cap yellow dent. Uneven color. Extra early maturity and a good yielder.

Rainbow Flint for Silage, \$3 a bu.

Payne's White Dent

NEW DWARF WHITE SWEET CLOVER

A wonderful feed and seed producer. Does not grow rank and coarse like the common white sweet clover. Produces most excellent pasture for dairy and beef cattle, sheep and horses, or will make a fine quality and quantity of hay from 10 lbs. of seed per acre. It's a sure producer. It is unusually hardy, withstands dry summers and cold winters. The crop starts growth early in the spring, produces an abundance of pasture. You need it on your farm. Price: \$9.00 per 100 lbs. Bags free.

White or Yellow Sweet Clover, best grade cleaned, scrubbed and sacked, \$8.50 per 100 pounds.

SOY BEANS

ILLINI—This bean is especially popular with the men who have combines. The reasons are as follows: (1) It stands up the best of all varieties. (2) The bean matures earlier than Manchu, and is usually threshed before the fall rains. (3) They do not shatter. (4) The yield is the greatest, as high as 37 bushels per acre. Excellent for hay and silage. 10 lbs. \$1.25; 50 lbs. \$3.50; 100 lbs. \$6.00.

BROME GRASS

This makes a good crop for pasture especially, and will do for hay although it is not of the best quality for the latter. Unequalled for hardiness and sturdiness. Will grow on most any soil and do well. Sow 7 to 15 pounds per acre for best results. Prices: 15 lbs. \$3.50; 50 lbs. \$10.00; 100 lbs. \$19.00.

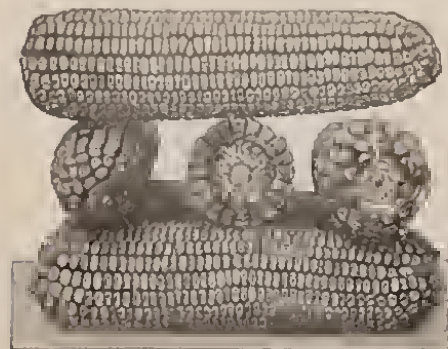

EARLY BLACK AMBER CANE

The Big Feed Producer

Cane will cut the cost of feeding cattle and sheep both as dry fodder and for silage. This is earlier than the southern types and not so tall. It grows right along through the severest and most prolonged drought. Last summer, after many grain crops failed, cane was planted late and made immense crops for the little moisture it had. Prices: 10 lbs. \$1.00; 50 lbs. \$2.00; 100 lbs. \$3.75.

GUARANTEE ON NURSERY STOCK

We will supply you only the best of the respective varieties in trees and shrubs adapted to this short season, dry land section.

We guarantee our stock to be strictly first quality, graded by the highest standards known to the nursery trade. We guarantee it to be in healthy growing condition at the time of delivery. Any stock that does not come up to this guarantee will be replaced without charge upon immediate notification thereof.

REPLACE POLICY

It sometimes happens that the customer has "bad luck" with his planting and some trees fail to live through. In a case of this kind we agree to replace free all stock properly planted and failing to grow provided written notice is given on or before July 1, following planting.

Prof. Hansen's Most Famous Plums

Waneta Plum

The Giant of Hardy Plums. Up to two inches in diameter. Highly flavored. Richly colored red skin. Considered by many the best and most popular of the Hansen Hybrid Plums and the champion plum of the northwest.

Waneta

Opata Cherry-Plum

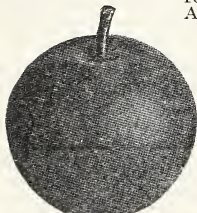

Earliest of all plums and famous everywhere for its rich, wonderfully delicious flavor. The flesh is a light green color with a purplish red skin. Very productive. Hardy throughout the northwest prairies.

Opata

Sapa Cherry-Plum

Early, large, productive and hardy. Its intense black purplish flesh is extra fine eating and wonderful for preserves and jam. Bears the year after planting. A sure annual producer and a favorite everywhere.

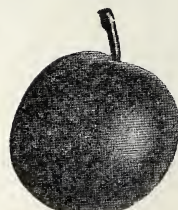

Hanska

Hanska Plum

The superb plum of apricot flavor and fragrance. Very hardy and productive. Many claim it makes the best jam of any of the Hansen Plums. Highly colored and firm flesh.

Yuteca Plum

Yuteca is best noted for its heavy annual bearing of very large and early plums. It is one of Prof. N. E. Hansen's very best selected native South Dakota plums. With Yuteca in your orchard you will have plenty of pollen to insure the proper setting of fruit in mixed plum orchards.

Sapa

Tokata Plum

The richest flavored of all the Hansen Plums. The fruit is of large size, with rich, orange-red skin and flesh, perfectly free-stone.

Oka Cherry

Not really a cherry but is a good substitute for a cherry. It is a sand cherry hybrid, a seedling of Champa. Color brighter than Sapa and a black red flesh.

Tom Thumb

Another production of Professor Hansen and one which is meeting with unusual favor in Canada. It is a **cherry growing on a bush**, and may be planted like currants and gooseberries. Begins to bear the second year and produces tremendous crops of cherries about the size of Compass but black in color and with **dark red flesh** like the Sapa.

ANOKA—THE WONDER APPLE

Three Year Anoka Tree
Bearing a Crop of Fruit

The test of years is proving the Anoka to be the most important apple introduction for the Great Plains that has yet come from the laboratory of the Northwest's Burbank, Prof. N. E. Hansen. It bears often the second year from planting, carries large crops every year, is a sturdy, handsome and exceedingly hardy tree. The fruit is of best for the home place under plains condition.

YELLOW TRANSPARENT APPLE

Earliest summer. This is the best of the extra early apples. Tree moderate grower, very hardy, healthy, comes into bearing very young. Imported from Russia by the United States Department of Agriculture in 1870. Skin thin, tender, smooth, waxy, pale yellow, changing to an attractive yellowish-white. Flesh white, tender, juicy with a pleasant flavor; good to extra good. First hardiness.

WEALTHY APPLES—Well known to all good fruit men of the middle west. A splendid late summer and early fall eating and cooking apple.

DUCHESS APPLES—An old favorite, summer eating apple. Very hardy and productive. A good old stand-by apple.

WHITNEY CRAB—August to September. A hardy, thrifty, upright grower. The fruit is very large and glossy green, striped with red. The flesh is firm, juicy and pleasant. It is a very heavy yielder and highly prized for cider.

Fruit Trees can be grown anywhere on dry land if you space them properly.

Siberian Flowering Crab

Or *Pyrus Baccata*—Windbreak, Ornamental, Fruit Tree, Shade Tree

Introduced from the colder parts of Siberia it is perfectly hardy everywhere. Recommended by the highest authorities as a splendid ornamental of great worth. Known for its strength and hardiness as a great windbreak. Its fruit makes excellent jelly.

In All Its Springtime Glory

Special Assorted Apple and Plum Orchard

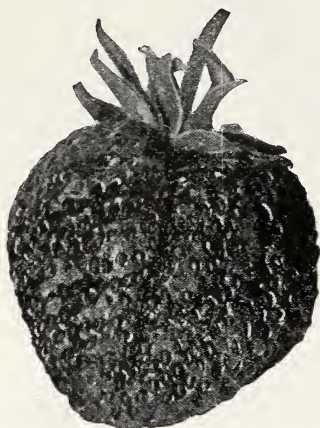

Mixed orchards of apple or plum trees bear better than if a single variety of apple or plum were planted. An alternate planting of both is better still, as the apples are longer lived and when the plums are ready to be taken out the apples are planted about the proper distance for large trees. The assortments we offer here are made up from a selection of varieties of plums and apples we consider adapted to your section.

12 Assorted Plum Trees, Large Size, \$6.50

12 Assorted Apple Trees, Large Size, \$6.50

25 Assorted Plum and Apple or Crab Trees, Large Size, \$12.00

Our nursery stock is adapted to this short season country, and we charge you **HALF PRICE** compared to outside agents' prices, and remember we pay the postage or express.

Grand Champion Strawberries

STRAWBERRIES

The Very Latest and Best

We are pricing strawberry plants this year only at pre-paid prices. All orders for them will be shipped by themselves as we cannot usually start shipping till near May first and the plants are liable to damage if packed in with other goods.

GRAND CHAMPION—Introducing the very latest in ever-bearing strawberries. Bigger, more uniform and sweeter than the Mastodon. Originated in the Bitter Root Valley in Montana. The hardest and best strawberry for this section. It's a prize winner. Order early. Produces wonderful crops in a few months after plants are set, and is sure to revolutionize the strawberry industry with this grand variety. **25 plants, \$1.00; 50 plants, \$1.50; 100 plants, \$2.50; 300 plants, \$6.00.**

Improved strain of Mastodon strawberries at same prices as the Grand Champion.

You don't have to be an expert to grow Grand Champion Strawberries. Our free book with each order tells you how.

Beta Grape

Considered the hardiest of the grapes for the northwest. Not of the best flavor but a great improvement over the native wild, and makes fine jams and jellies and tasty grape juice.

Prices: Each 20c; 5 for 95c; 10 for \$1.80; 25 for \$3.25.

Sunbeam Raspberry

The most popular and most famous of Prof. N. E. Hansen's red raspberry introductions. The fruits are flaming red in color, of large size, excellent flavor and wonderful keeping quality. It is perfectly hardy everywhere in the northwest, bearing heavy annually, and over a long period of time each season so is thus called everbearing by some. Because of its fine flavor, good keeping, and productiveness it makes a splendid berry for the market as well as for home use. **Prices: Each, 15c; 10 plants, \$1.00; 25 plants, \$1.75; 100 plants, \$4.00.**

Carrie Gooseberry

Best of all varieties because of its hardiness, productiveness and fine flavor. Its thornless branches make it a pleasure to pick the fruit.

PRICES: Per Plant 25c; 10 Plants \$2.00; 25 Plants \$4.50.

Englemanni Ivy

The hardest of the climbing vines. Clings by means of sudopads to a sheer wall without the aid of lattice work. **Each 50c; 3 for \$1.25.**

GLADIOLUS

One of the prettiest and easiest to grow of all the summer flowers. Our assortments are made up of only the choicest standard varieties and will produce a wonderful array of many beautiful flowers.

EXTRA SPECIAL ASSORTMENT OF LARGE BULBS

Contains 8 to 12 of our best Varieties.

12 Bulbs, postpaid to you, \$0.50; 25 Bulbs, postpaid to you, \$1.00.

SPECIAL LARGE SIZE ASSORTMENT

Contains 50 to 75 of Our Best Varieties

Selected for a continuous blooming period that will be sure to please you with many large and brilliant flowers.

100 Choice Large Blooming Size Bulbs Only \$2.50. Packed and Delivered FREE.

Gladioli

The peony is hardier, easier to grow and as beautiful as the rose.

The superb flower of beauty which gives a radiant joy of glorious color to the garden or lawn. Pink, red and white. **3 Assorted Peonies \$1.25; 6 Assorted Peonies \$2.00; 12 Assorted Peonies \$3.50; Packed and Delivered FREE.**

Peonies

Spirea Van Houttei

Well known to all and an ornamental of indispensable use. Hardy everywhere. **Large, \$1.00 each; 3 for \$2.50; Small, 50c each; 3 for \$1.25.**

Gladiolus and Dahlia bulbs are easily planted and produce beautiful flowers for this section.

Lilacs

The beautiful early flowering shrub of delightful fragrance. **Price: Common Purple, White or Persian, 50c each; 5 for \$2.00, Prepaid.**

Dahlias

Beautiful, short season, dry land flower. Dahlias are very easy to grow, require but little care and are very productive of beautiful flowers. They are planted like potatoes and grow easier.

We have all the best good standard choice sorts which produce such large, fine displays of beautiful flowers of many colors and shades. **Price: 12 Choice Assorted Tubers \$1.50; 25 Choice Assorted Tubers \$2.50. Packed and Delivered FREE.**

Flowering Almond (Siberian)

A flowering shrub three to four feet high, of branching habit, blossoms very early in the spring. With a little winter protection these stand the severe winters nicely. **2 to 3 ft., 50c; 5 for \$2.25; 10 for \$4.00.**

Dahlia

Washington Rust Proof Asparagus

A good vegetable for necessary vitamins in early spring. Every yard should have a row of asparagus.

PRICES PREPAID: Per Root 15c; 10 Roots \$1.00; 25 Roots \$2.25.

Perfection Currants

One of the very best for the prairie. Heavy producers, strong and vigorous plants. It produces double the crop and the size of the ordinary varieties.

Prices: Per plant 75c; 5 for \$1.20; 10 for \$2.10; 25 for \$4.75.

Perfection Currants

POPLAR, RUSSIAN AND GOLDEN WILLOWS

Tall swift growing. Excellent for quick windbreaks.

Size	Each	10	25	100
3-4 ft.	\$0.25	\$1.00	\$2.00	\$ 5.00

5-6 ft.	.40	2.00	3.50	12.00

TARTARIAN BUSH HONEYSUCKLE

The upright or bush form of the Honeysuckle and noted for the great profusion and fragrance of its flowers. Growing from 8 to 12 feet high, these tall growing shrubs are extremely suitable for shrubbery clusters and for individual planting purposes, especially in exposed locations, as they are the last word in hardiness. For hedges they are unsurpassable, being very ornamental in a trained hedge and will stand clipping to any desired shape or form. **Mixed colors, 2 to 3 ft. each 30c; 10, \$2.80; 50, \$12; 100, \$22. PREPAID.**

Large select specimen plants for lawn plantings, 75c each; three for \$2.00; six for \$3.50.

Tartarian Bush Honeysuckle

Plant a few Peonies and Dahlias—a good investment for beauty and pleasure.

Snowball

produced from ground to tip, in large pyramidal clusters of 30 to 40.
Each 85c; 3 for \$2.25.

SNOWBALL—*Viburnum Opulus Sterilis*

An old favorite the country over. Requires a favorable location and plenty of moisture. When conditions are favorable it is unsurpassed among the early blooming shrubs. The last of May or in the first week or two of June it becomes almost completely covered with dense round white flower clusters. 2 to 3 ft. size, each, 55c; 5 for \$2.50 Prepaid.

CLIMBING and RAMBLER ROSES

Prepaid Prices

CLIMBING AMERICAN BEAUTY—(My pick.) Rich carmine; fragrant; early bloomer. Plants heavy two-year-old No. 1 stock. Each 85c; 3 for \$2.25.

DOROTHY PERKINS—Clear shell pink with flowers borne in clusters; full and double. One of the finest of all climbing roses. Each 85c; 3 for \$2.25.

CRIMSON RAMBLER—The famous crimson-cluster climber, so extremely effective when grown on pillars and trellises. Flowers are

Climbing American Beauty Roses

HARDY HEDGE ROSES

Nothing is more beautiful in hedges than a rose hedge. And nothing can be harder than these Hardy Siberian Hedge Roses. They were introduced from Siberia by Dr. N. E. Hansen and have been developed by him for their beauty for years. The result is, we have a wonderful flowering hedge to offer which blooms all summer long from June till it freezes. The flowers are fragrant, large and beautiful beyond words.

With a hedge of these around your lawn you will have a flowering border of beauty to frame your place which will be a continual joy and everlasting pleasure throughout the years to come. Prices for Large, Stocky, Bushy Plants: Each 50c; 5 for \$2.25; 10 for \$3.75; 25 for \$7.00, PREPAID.

CHINESE ELM

GRACEFUL as the Cut Leaf Birch, RAPID GROWING as the Poplar, BEAUTIFUL as the best American Elm. THE GREATEST CONTRIBUTION in recent years to the horticulture of the northwest.

Chinese Elm

Why the Chinese Elm Is the Most Talked of Tree in the West Today

1. The Chinese Elm is a tree of rare beauty. It has heavy, dark green foliage of the elm type with delicate fine twigs. It combines the beauty of the best elms with the gracefulness of the cut leaf birch.
2. It resists drought and cold, thrives on poor soil and makes a fine showing in spite of neglect.
3. It is a tree of rapid growth—growing as rapidly as the soft maple or cottonwood. It is not uncommon for a 2 ft. seedling in the nursery row to become a 10 ft. tree in two seasons.
4. It holds its foliage until late in the fall—adding three or four weeks to the year's growing season.
5. The Chinese Elm is a real contribution from the Orient to the Occident and promises to take its place as one of the most popular shade and street trees of America.

CAUTION: Do not plant on low, wet land, but plant on higher ground. Do not force growth late in the season, but permit tree to ripen early.

Trial order 10 trees 4 ft. high, \$4.00; 10 trees 5 ft. high, \$5.00. American Elm trees 5 ft. size, 40c each. We prepay all nursery stock to your station. This saves you money.

GINNALA MAPLE

This is a hardy maple from Siberia. A semi-dwarf tree, 14 to 20 feet tall. Hardier than the Soft Maple. The bright colored prettily cut leaves and the immense quantities of seed that they produce make them very attractive trees.

2 to 3 feet, price, each, 40c; 5 for \$1.50; 10 for \$2.50 PREPAID.

From Wyoming rancher: "You can count on my business regularly from now on. I have had my lesson with unadapted seed and nursery stock. Sam Bober's Seed and Fruit Trees are the best and the cheapest."

BOBER'S LAWN GRASS SEED

No home is complete without a good, well kept up lawn, and no lawn is worthy of the name that was not grown from the proper mixture of grass seeds. Conditions of our climate, altitude and moisture have a decided effect on the mixture used. Some of the finest homes, schools and government buildings have been beautified by using Sam Bober's Lawn Grass, which has been tested thoroughly under the severe conditions of our climate. It is "good lawn insurance" to sow our lawn seed. There is no purer or better mixture on the market anywhere. **Prepaid prices: 45¢ per lb.; 5 lbs. for \$1.90; 10 lbs. for \$3.70.**

Germaco
Hotkaps
New Method of
Plant Protection

Protect Plants for Profit

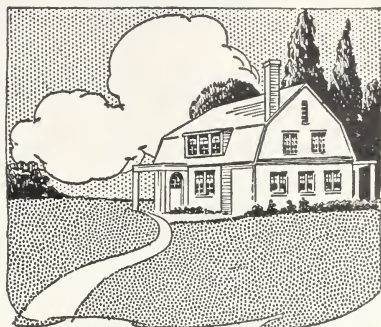

GERMACO HOTKAPS can make you extra dollars this season. They protect plants from frost, wind, rain, insects and ground crusting. Thus they produce harder, quicker crops. You get higher prices! Thousands were used in the Dakotas and in Montana last year. They cost so little that growers cannot afford to be without them. **Price per 100, \$1.50; roll (1,000 Kaps) \$11.50. Prepaid to your address.**

Every garden in western South and North Dakota, Montana and Wyoming will benefit by the use of these Kaps. I sent out thousands of these Kaps last year and every user is asking for them again. Write for free pamphlet or order today!

MULCH PAPER GROUND COVERS

No Back-breaking Hoeing

After trying Gater-Hide Mulch Paper in my garden, I can recommend it to my customers. It will produce bigger, better and earlier crops. It makes a **labor saving garden**. One roll of paper mulch will cover a home garden 25 feet square. Saves moisture, no weeds and a warmer seed bed. **Price, per roll, \$3.00, prepaid.**

NEW WAY TO KILL GARDEN BUGS

PROTECT your flowers and vegetables this new way. Surprisingly easy! Simply sprinkle with a new kind of non-poisonous powder called **PLANTGARD**. Not only are bugs worms and insects **killed**, but this almost magical powder also **fertilizes** the ground. No wonder flowers grow larger and brighter colored! Vegetables mature quicker and are more tasty. Yet it costs only a few cents to protect an entire garden bed.

Ask for Plantgard today.

Plantgard
FOR GARDEN PROTECTION

Dry Land Improved Farms for Sale

My seed business takes most of my time and I cannot spare time to look after all my farm land. I offer the following farms for sale and will give **reasonable terms to responsible parties**. Trades or lease propositions not considered.

160 acres near Sulphur, S. D., 2½ miles from Highway 212. All seeded to Cossack alfalfa. Fenced. Price \$11.50 per acre.

1,140 acres on graveled Highway 212, 22 miles east of Newell. 60 acres planted to Cossack alfalfa, 200 acres ready for spring planting, balance farming and pasture land. Partly fenced. Price \$5.25 per acre. If you have a little money and an outfit, this place will make you good money.

800 acres 17 miles northwest of Newell. 400 acres in registered Grimm alfalfa; 160 acres in Dwarf Sweet Clover, balance farming land. Fenced and cross fenced. Range for stock. A few small buildings. Price, \$12.50 per acre. The best bargain in the country.

40 acres, all irrigated, nice level land, clay soil, suitable for sugar beets or general farming. Big six-room house and small buildings. For quick sale will sell for \$32 per acre, \$500 down, balance plenty of time.

If you are in position to handle any of the above farms write me at once and I will be glad to give you details and terms. These farms will be rented on March 1st if not sold by that time.

320 acres 10 miles north of Nisland on mail route. 200 acres in Registered Cossack alfalfa. Balance farm land. Well fenced and good small house. Price \$14.00 per acre.

160 acres 3 miles west of Vale on graveled Highway 79. 40 acres in registered Grimm alfalfa, balance farming land. Fenced and cross fenced. 27 acres on this farm are irrigated, good sandy loam. Good small buildings. A dandy place for a farm home. Price \$20.00 per acre.

480 acres 16 miles from Newell. Sandy loam and some clay soil; 300 acres in Registered Cossack alfalfa. Balance farming land. All fenced in woven wire. Small buildings. One of the best producing dry land farms near Newell. Price \$16.50 per acre.

Buy BOBER'S Adapted Seed and Nursery Stock With Confidence

All Our Varieties

are best adapted for successful yields in the northwest. We do not list "gold brick" novelties to waste your money. You will not find fruit or ornamental shrubs listed in this catalog that are not adapted to your farm and garden. You can put Sam Bober's adapted seed and nursery stock to work for you confident of its better yielding ability. It fits your section—your farm—your garden.

Field seed prices are subject to change after March 1st

Alfalfa and Sweet Clover Inoculation

Richmond's **Legume-Aid** USE WITHOUT WATER

Living Bacteria in a moist base which adheres to dry seed without the use of water.

Recommended because of its ease of application and stimulating effect.

It is most easily mixed by placing it with the seed in a clean milk can or other closed container and shaking or rotating it until all the seed is well coated.

It is not necessary to sow LEGUME-AID treated seed immediately, but it should be sown as soon as conditions permit. 1 bu. size 60c; 2½ bu. size \$1.50, prepaid.

Adapted to your farm BOBER'S SEEDS grow better

The Use of Flax as a Nurse Crop

In West Central Iowa, a farmer seeded six acres of Bison flax and six acres of early oats the first week in April. Alfalfa was seeded with both the flax and the oats. Along in July, when both flax and oats were harvested, it was discovered that there was an excellent stand of alfalfa with the flax, but very little stand with the oats. The flax crop yielded only one-fourth to one-third as much as the oats, but the price is seven times as great. This man is very enthusiastic about flax, and we wonder if many of our readers have had a similar experience. See page 9 for prices.
